WORK EXPERIENCE

Digicodes Technologies Pvt. Ltd., Lucknow

MERN Stack Apprenticeship   April 2024 - Sept 2024

- Built reusable components using React.js and Tailwind CSS.
- Integrated APIs and managed data flow using Redux.
- Collaborated with backend developers to design RESTful services.
- Deployed frontend applications using Netlify and GitHub Pages.
- Participated in code reviews and agile sprint planning.

EDUCATION

Avadh University

Bachelor of Arts (B.A.)   2022 - 2025

PROJECTS

Portfolio 🔗

A collection of real-world web projects focused on responsive design, clean UI, and practical functionality—showcasing my ability to build, structure, and deliver user-friendly digital experiences.

E-commerce Full Stack Application 🔗

React, Redux, Node.js, Express.js, MongoDB Developed a shopping platform featuring product filters, user authentication, shopping cart functionality, and an admin dashboard.

Spotify Clone (Frontend Only) 🔗

HTML, CSS, Tailwind CSS, JavaScript
Replicated the Spotify user interface with a functional audio player and fully responsive design.

To-do List App 🔗

React.js, Vite, Local Storage
Built a task manager using React and Vite, featuring persistent local storage and task filtering capabilities.

X.com (Twitter UI Clone) 🔗

HTML, CSS, Tailwind CSS, JavaScript
Designed a responsive front-end clone of Twitter with dark mode support.

Calculator 🔗

React.js, Redux, HTML, CSS, JavaScript
Created a responsive calculator using React and Redux that supports basic arithmetic operations and state management.
